

EcoCost Meeting Minutes

February 28, 2021

Start: 8:00pm | End: 8:40pm

Meeting was short as Christian was not present and the team was still learning Golang for the purpose of this project

Attendance:

Hunter Johnson, Jackie Diep, James Rinehart, Joshua McGehee

Discussion:

- Main focus: Discussion of what design means and how to implement it properly within a project
- Discussed how the back-end would link to the front end for seamless interaction and information display
- Created small subcategories within our group chat in order to share information specific to front-end, back-end, and database
 - This will hopefully speed the process of learning new languages and frameworks for this project
- My progress on the front-end has been slow as work has become increasingly more stressful. Hopefully normal development progress will resume shortly

*An additional meeting was scheduled with Christian in order to get the team back on the right path and inspired
